

"Our mission is to promote and defend the right to life of all innocent human beings from the time of fertilization until natural death"

The next Henry County Right to Life meeting will be held September 21, 2026 at St. Paul's Catholic Church basement, Hamler at 7 p.m. Enter North Door.

A big Thank You to all who helped with our Mother's Day Flower Sale! We very much appreciate the generous donations made by all our supporters.

Just a friendly reminder...

2026 Dues can be paid anytime during the year.

Volunteers Are Needed to help at the 2026 Right to Life Fair Booth. Volunteers are asked to assist in the booth during fair week, Aug 13th through Aug 20th. There are two shifts - 2PM – 6PM and 6PM – 9PM each day. The booth gives us a chance to reach out to fairgoers through sharing a variety of informational literature around pro life Issues and a continuous loop ultrasound video displaying the sanctity of life in the womb. Call Eileen Wagner at 419-231-2994 if you are able to help.

Join us for the 2026 OHIO MARCH FOR LIFE in Columbus

2025 Ohio March for Life in Columbus

Join us on the bus for the October 2nd, 2026 OHIO MARCH FOR LIFE in Columbus. The event sponsored by the Center for Christian Virtue will be held at the Ohio Statehouse. The event begins with a Pre Rally Concert at 10 a.m. followed by the 11 a.m. Rally; the March for Life then begins at noon. We have reserved a bus scheduled to leave Sacred Heart Church New Bavaria at 6:45 a.m. and also at Ottawa Walmart at 7:15 a.m. We will return at approximately 5 p.m. Call or text **Diane Schmenk at 419-615-9610** to reserve your seat. Transportation costs for students are \$10; adults \$20. **Storage space under the bus allows passengers to bring a chair to accommodate anyone preferring to sit during**

the hour long Rally. The noon time March for Life is optional; those unable to distance walk may opt out of this portion of the event. Your support at the rally is greatly appreciated. T-Shirts (see photo) are available in adult size S,M,L and XL for \$20 to wear to the rally. You may purchase these shirts by calling 419-231-2994 or by visiting our booth at the Henry Co. Fair in August.

Act Now To End Mail Order Abortion

There were over 1,100,000 abortions in the U.S. in 2025, with well over 304,000—that we know about—coming from mail-order abortion.

YOUR VOICE MATTERS! The abortion industry is sending abortion pills into communities across the nation causing harm to women and loss of life. *We have an obligation to ACT!* Defend mothers and babies who are at risk of dying by putting an end to these growing crime scenes caused by mail-ordered abortion pills.

Danco Laboratories Markets Mifeprex as “The Safe and Effective Abortion Pill”

An analysis of real-world insurance claims data for 865,727 prescribed mifepristone abortions, broadly representative of women who obtain mifepristone abortions in the U.S. today, revealed a serious adverse event (sepsis, infection, hemorrhaging, or another serious adverse event within 45 days following a mifepristone abortion) rate of 10.93 percent—at least 22 times as high as the summary figure reported on the drug label. In light of this research, we must compel the Food and Drug Administration (FDA) to reinstate original, stronger patient safety protocols that were required when mifepristone was first approved and reconsider its approval of mifepristone altogether.

Reinstatement of earlier essential regulations and medical oversight is not optional; it is a fundamental requirement for health and safety. In this pursuit, one of the key tools used by the FDA is the Risk Evaluation and Mitigation Strategies (REMS) program, established in 2007 under the Food and Drug Administration Amendments Act.

The program was developed as a response to several well-documented cases of medication-related harm, including deaths and serious side effects, to manage risks associated with specific medications with a higher potential for harm or misuse.

During the Obama and Biden administrations, the FDA chipped away at these initial safeguards, risking women's health in order to increase access to abortion. Under the current (REMS) program in effect since 2023:

- * mifepristone abortion now requires as little as one telehealth visit with any approved healthcare provider (not necessarily a physician),
- * women may self-administer drugs obtained from a mail-order pharmacy, and the prescriber need not report any adverse events unless he or she knows that a patient has died.

Please...lend your voice by sending your federal elected officials your message to restore health and safety standards for women and protect the preborn! **Doing so RIGHT NOW is easy and at your fingertips. Visit abortioncrimebyemail.com/toledo.** There you will be offered an option to add your personal message to one prepared for you and ready for submission with a click of the keyboard. Your message will then be electronically directed to federal legislators representing our region. Then, share this information with your family and friends to keep the momentum going.

Those wishing to use land mail rather than the web address above may consider the text and addresses below in drafting a message to our legislators.....

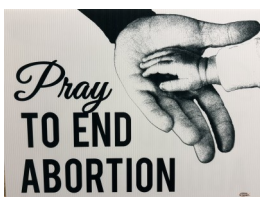

"The Biden administration unleashed a shadow abortion network by stripping away decades of bipartisan medical protections, abandoning women to undergo dangerous chemical abortions alone. Real-world data show that more than 1 in 10 women experience life-threatening complications like sepsis and hemorrhaging within 45 days of a chemical abortion, a risk 22 times higher than the current FDA claims. We call on Congress to protect women and the unborn by immediately reinstating the in-person physician requirement and ending the lawless mail-order mandate."

NOTE: Information provided above is obtained from an April, 2025 report from the Ethics and Public Policy Center. Founded in 1976 by Dr. Ernest W. Lefever, this Center is Washington, D.C.'s premier institute dedicated to applying the Judeo-Christian moral tradition to critical issues of public policy. Information was also provided by Foundation for Life and Greater Toledo Right to Life of Maumee, Ohio. The mission of Foundation for Life and Greater Toledo Right to Life is to safeguard the inalienable right to life by presenting the truth about abortion, infanticide, embryonic stem cell research, euthanasia and other issues which impact the right to life.

Show your support for Life and place a “Pray to end abortion” sign in your yard. We have both regular or with a wooden border that keeps the sign in good shape through all seasons. Call or text 419-231-2994 if you are willing to display one.
